

Quantum for Office 365

Revolutionise your management of Microsoft Office 365

Quantum for Office 365 offers unrivalled visibility across your desktop estate.

This innovative tool enables you to cut costs, boost security and organise user data effectively.
You simply cannot afford to be without it.

Complete Visibility

- ✓ Process and **support for JML** (joiners, movers and leavers)
- ✓ Current **license agreements** with license cost and additional products
- ✓ **3 year view** of the licenses you've bought, allocated and used
- ✓ Ongoing usage **analysis**
- ✓ Spend **forecasts** and potential **cost savings**
- ✓ **Premium license** allocations and usage
- ✓ Detailed **Office 365 application** and user activity information

Benefits

- ✓ **View user activity** and behaviour by user, team and department
- ✓ **Eliminates wasted licenses**, cuts costs and optimises investments
- ✓ **Better budgeting** and spend forecasting
- ✓ **Improves ROI** by identifying licenses with little or no usage
- ✓ Clarity when right-sizing current and future **renewals**
- ✓ **Boosts governance and compliance with security policies** e.g. view files shared outside the company via OneDrive, Skype and Teams
- ✓ Helps you negotiate **license renewals** with confidence

Key Features

- ✓ Uses **Microsoft Power BI** dashboards
- ✓ Data pulled from **Microsoft Graph API** and **Azure AD**
- ✓ Hosted in **Azure UK**
- ✓ **Secure portal** with AD for user authentication
- ✓ **Unlimited user accounts**
- ✓ **Automation** and rules engine
- ✓ Identifies **management solution**
