

Aqua Global

Technology to Automate and Simplify Business Processes

Client | Aqua Global

Sector | Finance, technology

About the Client

Aqua Global is one of the world's leading financial technology solutions providers, whose systems are designed to streamline financial processes, enhance efficiency, and compliance.

The Company Challenges

Aqua Global wanted Recarta IT to design a new system that would continue to support its banking and financial institution clients in automating and simplifying its business processes, without requiring multiple servers and solutions. Aqua Global also wanted a dynamic system that would meet the ever-changing requirements of the industry.

The Solution

Recarta IT designed and implemented cost-saving cloud solutions for Aqua Global, upgrading its systems within a rapid timeframe. The new processor-based systems not only offer the fastest processors in the industry but also cater to different operating systems. The system was carefully configured by Recarta IT due to its optimisation for both financial applications and data-intensive workloads, including mobile and social applications.

The Results: Business Efficiencies

Aqua Global can now align new technology to meet evolving client needs, unlock new data-driven insights for innovation, deliver secure business services, and cut costs. The new technology helps to automate and simplify its processes.

The Results: Supporting Clients

Aqua Global can now deploy integrated software rapidly and flexibly, tailored to its business and client needs, eliminating the complexity of multiple servers and solutions.

The Results: Performance

From 1 to 240 core servers, the new IBM processor-based systems provide Aqua Global with the performance and scalability to meet the varied requirements of its own IBM clients. The systems support multiple workloads and transform IT infrastructure options, creating efficiencies and releasing resources, capital, and staff to explore and drive new business value. The technology now provides solutions that are maintainable, easy to manage, and scalable for instant results. The partnership has enabled Aqua Global to expand its audience reach and radically transform how it operates both externally and internally.

Testimonial from Aqua Global

"Recarta IT are incredible specialists in what they do, providing immediate alliance, instant support, whilst offering a professional, all-round embracing service. They are good at delivering the punch through cost-effective solutions, and they completely understand the IBMi programming side of the business. At Aqua Global, we value Recarta IT's opinion and trust their expertise."

Nick Fernando | Director of Aqua Global

About Recarta IT

Recarta IT specialises in the design, deployment, hosting and full management of Enterprise Server and Storage environments for business-critical applications and AI workloads in the Financial, Manufacturing, Distribution, Public and Retail sectors.
